## **NOTICE TO NEW BIDDERS**

Our Mail Auction Sales Are Conducted In The Following Method:

1. Bids are entered in the order received.

3. Valuations placed in the auction catalog are either the Standard Catalog listings (for which we use the word "list"); or prices generally asked by dealers when the coin is in stock (for which we use the word "worth"); or prices generally realized at auctions (for which we use the word "brings").

We trust the above information will help you in securing coins in our auction sales.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogues.

## **COMMEMORATIVES BRILLIANT UNC.**

During the last six months as sharp increase has taken place for these historical and interesting coins resulting in a rapid climb in prices. Dealers are now paying more for some than they retailed them at three months ago, for example dealers are paying \$5 for New Rochelles which retailed at only \$4.75 just a few months ago. The Robinsons which dealers are offering to buy at \$1.75 seems to be destined to increase sharply during the next few months (only recently it sold as low as \$1.50). We would not be surprised to see it bring over \$3 by the end of

1951. Prices in ( ) are prices dealers are advertising to pay.

# THE U. S. EARLY SILVER DOLLARS FROM 1794 TO 1804

By M. H. Bolender at \$10

*(Just Check Your Bid Sheet)*

The interesting history of the early Dollar coinage, the trials and problems, and the progress made.

Helpful tables giving distinguishing features.

Quick, easy, and positive identification of the one hundred and seventy known varieties.

Degrees of rarity based on actual records kept over 40 years.

Large de luxe volume, 9x12 inches, quality printed and finely bound in cloth, lettered in gold.

About eighty large pages of text, with much information on this long neglected series.

A valuation list printed in loose sheet form will be inserted and included with each copy. This will give the fair current prices of all varieties in the various conditions. These conditions will be explained in detail, so that collectors may know what a "fine" coin really is, and quality will be better understood in the study of the series.

Fully illustrated with 157 different obverse and reverses, on nine large pages of fine collotype plates.

The importance of correctly attributing your early Dollars cannot be taken lightly. First, I will pay full 1950 catalogue price for any and all dates before 1804. Secondly, there are a great number of rare varieties that are worth from two to three times catalogue price, so that by being informed you may quickly realize an extra profit that will more than pay the cost of your book.
